Docket No. 50-387  
License No. NPF-14

Attached is Licensee Event Report 92-012-00. This report is being made as a result of our evaluation of NRC Bulletin 92-01 concerning Thermo-Lag 330 fire barriers installed at Susquehanna. Equipment utilizing Thermo-Lag 330 has been declared inoperable and has been determined to constitute a condition prohibited by Technical Specification per 10CFR50.73(a)(2)(i)(B) and a condition outside our design basis per 10CFR50.73(a)(2)(ii)(B). Appropriate compensatory actions have been implemented. We are researching available test information on our installation and are making preparation for additional testing. Contingency plans will be developed to address any test failures that occur.
