Docket Nos. 50-387  
and 50-388

Dear Mr. Miller:

Attached are Revisions 9 and 6 for Susquehanna SES Units 1 and 2 respectively to the Inservice Inspection Program Plan for Pump and Valve Operational Testing. These revisions correct the numbering of valves in the CRD system, and add the valves associated with the reactor water level backfill modifications which were mandated by NRC Bulletin 93-03. Also, a relief request for relief from exercising these valves to their closed positions once per 92 days has been provided.

If you have any questions please contact Mr. C.T. Coddington at (215) 774-7915.

Very truly yours,

*dr*   
R. G. Byram
