**SUSQUEHANNA STEAM ELECTRIC STATION  
SRO LICENSE EXAMINATION REQUEST  
PLA-4088 FILE R41-2**

Dear Mr. Martin:

The purpose of this letter is to request that the NRC administer a Senior Reactor Operator License Examination to Mr. Kevin V. Chambliss during the week of August 8, 1994. Mr. Chambliss is enrolled in our SRO training program in preparation for an SRO license and assignment as Manager-Nuclear Operations.

Mr. Chambliss has been with PP&L for over 12 years. During this time he has filled the following positions:

- 1) Supervisor-Maintenance Production/Outage-SSES
- 2) Mechanical Maintenance Supervisor
- 3) Modifications Group Supervisor
- 4) Supervisor-Nuclear Planning
- 5) Sr. Project Engineer

These positions have provided development opportunities through involvement in many aspects of Susquehanna operations. In addition, prior to joining PP&L, Mr. Chambliss was a commissioned officer in the U.S. Navy and was a qualified engineer in the nuclear power program.

He has also completed the Susquehanna SES Plant Certification Course, given to specific PP&L personnel, which is a comprehensive course that provides specific and detailed information related to Susquehanna operations. This course is developed from the SRO training program.

We thank you for your consideration in this matter and look forward to your reply. My staff is prepared to respond to any special needs this may place on your license examiners.

Very truly yours,

  
R. G. Byram
