SUSQUEHANNA STEAM ELECTRIC STATION  
FINAL SURVEY OF C&D SITE #3  
I.D. #101363  
CCN 741326 FILE R9-8C  
PLE- 17682

Dear Mr. Tomayko:

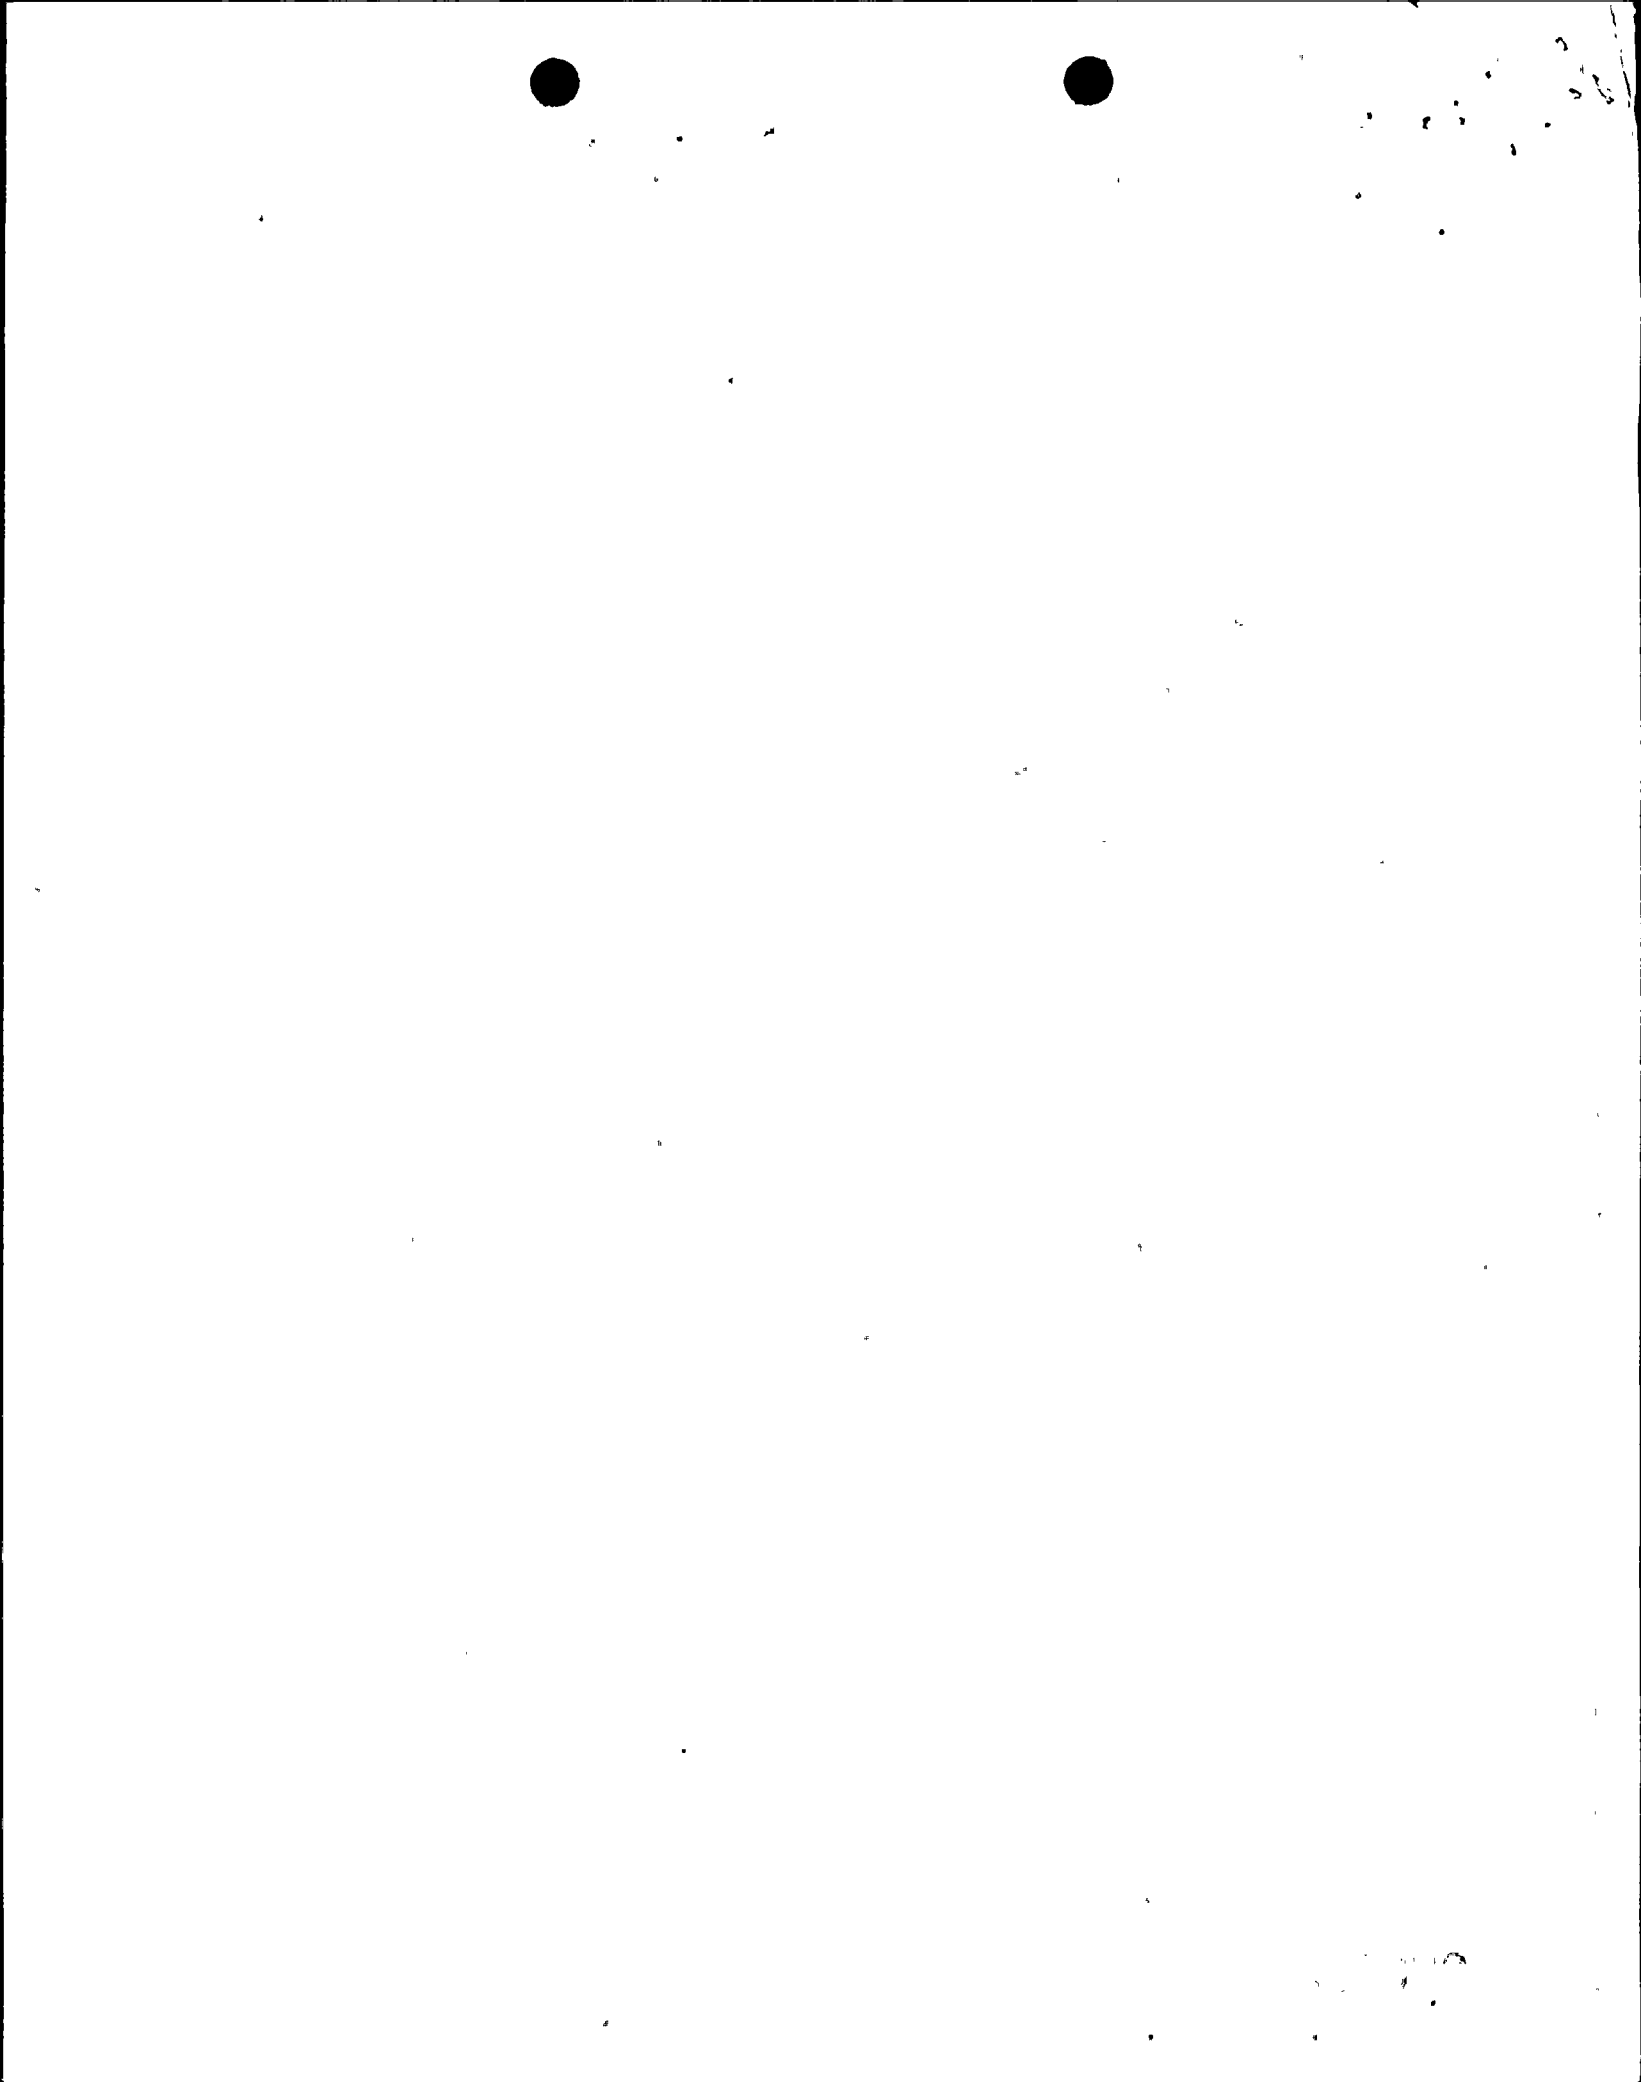

Pennsylvania Power & Light Company (PP&L) is submitting the final topographic survey drawing for C&D Site #3, I.D. #101363. This site was graded, covered with 24" of cover materials including at least six inches of topsoil, graded, and seeded. Bonding worksheets attached to letter PLE-16678, submitted to you on March 23, 1993, were followed for site closure.

Enclosed are three copies of Revision No. 6 of Susquehanna SES Solid Waste Disposal Site #3 Annual Topographic Map. This site survey was conducted in 1993 after closure. This landfill has not been used since June 1992.

The area of C&D Site #3 used as a landfill can be seen in drawing inserts used for Section X-X and Y-Y coordinates. Only that portion of the site used to landfill wastes was covered and it is noted by the "Existing Grade" line. The "Final Grade" line noted in the inserts refers to the proposed grade for the 20-year expected life of the landfill. However, because of early closure wastes were not placed along the perimeter of the landfill.
