Docket No. 50-387

*Reference: PLA-4173, R.G. Byram to C.L. Miller, "Proposed Amendment No. 168 to License No. NPF-14 :
Power Uprate With Increased Core Flow," dated July 27, 1994.*

Dear Sir:

This letter provides Supplement No. 1 to proposed Amendment No. 168 provided under PLA-4173 dated July 27, 1994. The purpose of this submittal is to supplement the list identifying the proposed changes and provide a safety assessment and no significant hazards considerations for deleting Footnote "*" on Technical Specification Table 3.3.2-2, pages 3/4 3-18 and 3/4 3-19 and Footnote "***" on Technical Specification Table 3.3.2-2, page 3/4 3-20. The marked-up technical specification pages provided in our previous submittal have these changes lined-out but no safety assessment or hazards assessment was provided. For administrative purposes, the changes will be identified as Item 31 as provided below:

31. Footnote "*" on Technical Specification Table 3.3.2-2, pages 3/4 3-18 and 3/4 3-19 and Footnote "***" on Technical Specification Table 3.3.2-2, page 3/4 3-20 have been deleted.

Evaluation

Deletion of Footnote "*" on Technical Specification Table 3.3.2-2, pages 3/4 3-18 and 3/4 3-19 and Footnote "***" on Technical Specification Table 3.3.2-2, page 3/4 3-20 is an administrative change which deletes footnotes that are no longer applicable as they encompass only the period from October 19, 1989 to January 19, 1990, which has expired.

1/1

No Significant Hazards Considerations:

1. The proposed change does not involve a significant increase in the probability or consequences of an accident previously evaluated as it involves the administrative deletion of footnotes which were applicable only during the period from October 19, 1989 to January 19, 1990, which has expired.
2. The proposed change does not create the possibility of a new or different kind of accident from any previously evaluated as it involves the administrative deletion of footnotes which were applicable only during the period from October 19, 1989 to January 19, 1990, which has expired.
3. The proposed change does not involve a significant reduction in a margin of safety as it involves the administrative deletion of footnotes which were applicable only during the period from October 19, 1989 to January 1990, which has expired.

Should you have any questions, please contact Mr. W.W. William at (610) 774-5610.

Very truly yours,

R. G. Byram
