

Aug 22, 1995-

To whom it may concern:

We in the Susquehanna valley Area are very satisfied with our service from P&L.

We do not want to see PECO take over with their high rates and poor service. We have friends living in the Area where PECO provides electric. Their rates are very high, and people will have to choose between staying or paying electric bills. Also many men working for P&L will be losing their jobs. If this is a free County then

People have their right to choice.

Sincerely,

Esther + Lloyd Schneider
