Nuclear Regulatory Commission
Washington, DC 20555

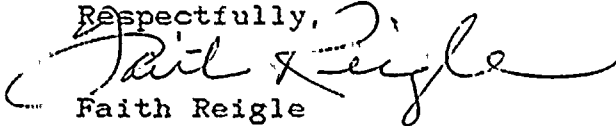

Dear Sirs:

I am very distressed over the disclosure of PECO wanting to take over PP&L.

PP&L has served us well, a claim few PECO consumers can make despite their high rates. The reasons, including the squabble over the Fulton Nuclear Power Plant, the notoriously high electric rates, inferior service, and the political advantages to Rep. Walker should give cause for concern.

Please do all in your power to prevent this takeover.

Respectfully,

Faith Reigle
