GENERIC LETTER 96-05: 60-DAY RESPONSE
PLA-4531 **FILES R41-2, P83-1**

Docket Nos. 50-387
and 50-388

Reference: NRC Generic Letter 96-05, "Periodic Verification of Design-Basis Capability of Safety-Related Motor-Operated Valves," dated September 18, 1996.

NRC Generic Letter 96-05 requests licensees to commit within 60 days to a program to verify on a periodic basis that safety-related motor-operated valves (MOVs) are capable of performing their safety functions consistent with their current licensing basis. This letter confirms that Pennsylvania Power & Light Company (PP&L) will implement at Susquehanna SES the requested MOV periodic verification program in accordance with the Generic Letter.

The Generic Letter also requests that a summary description of the MOV periodic verification program be submitted within 180 days from the date of Generic Letter 96-05, or upon notification to the NRC of completion of the Generic Letter 89-10 program, whichever is later. PP&L will submit a summary schedule with the 180-day response to Generic Letter 96-05.

Generic Letter 96-05 requests a schedule for completing the implementation of the MOV periodic verification program. PP&L will include this schedule with the summary description submitted for the 180-day response.

If you have any questions, please contact Mr. C. T. Coddington at (610) 774-7531.

Very truly yours,

R. G. Byram
