**FILE R41-2**

*Reference: PLA-4546, R. G. Byram to USNRC, "Response to NRC Request for Information Regarding Adequacy and Availability of Design Bases Information," dated February 13, 1997.*

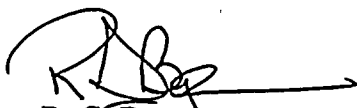

The purpose of this letter is to document a correction to the referenced letter, in which PP&L responded to the NRC's October 9, 1996 "Request for Information Pursuant to 10 CFR 50.54(f) Regarding Adequacy and Availability of Design Bases Information."

During the ongoing staff review of PP&L's response, a question was raised regarding the reference on page 6 of the cover letter to "A Service Water System SWOPI Readiness Inspection performed by the NRC in 1995." This statement was incorrect; the NRC did not perform such an inspection at Susquehanna. As indicated by the word "readiness", this statement should have indicated the inspection was performed by PP&L.

A correct characterization is provided on pages IV-71 to IV-72 of our detailed response contained in the Attachment to the cover letter of our response. The detailed response clearly indicates that the subject "readiness inspection" was conducted by PP&L in preparation for an NRC Service Water System Operational Performance Inspection. The summary provided in the cover letter inadvertently mischaracterized the readiness inspection.

Should you have any further questions, please contact Mr. J. M. Kenny at (610) 774-7535.

Very truly yours,

  
R. G. Byram
