PLA - 0004911 FILE R41-2

Docket No. 50-387  
License No. NPF-14

Attached is Licensee Event Report 50-387/98-007-00. This event was determined to be reportable per 10CFR50.73(a)(2)(ii) in that both isolation check valves on the CRD System exceeded their leakage acceptance criteria. These valves are designed to prevent back flow from the reactor vessel to piping and components outside of secondary containment. The check valves were reworked and successfully passed the leak test. There were no consequences to the health or safety of the public.

  
G. J. Kuczynski  
General Manager - Susquehanna SES
