SUBJECT
Follow Up Discussion of Amendment No. 5 Draft Licensing Documents

SUMMARY
At approximately 2 P.M. on June 5, Dominion Energy called Chris Allen, at his request, to discuss additional NRC comments to the technical specifications. Chris Allen indicated NRC staff wanted Dominion to add a footnote to the "Initial Enrichment" data for the TN-32B HBU technical specification. Chris Allen also notified Dominion that the draft license they had previously reviewed did not contain all the editorial changes proposed by NRC staff and that he had provided them an updated draft license for their review. The call concluded at approximately 2:30 P.M.
