Dear Mr. Tran:

This letter is to respond to your letter dated May 9, 2017 regarding the financial assurance for decommissioning required for Wayne State University's material license (License No. 21-00741-08, Docket No. 030-01995).

Based on sections A.2.2 and A.11 to the NUREG-1757, Volume 3, Revision 1, the original letter signed by the President of our University with Certification of Financial Assurance and the Statement of Intent demonstrating that we can request special funding from its funding body will be submitted to you. The Vice President for Research, Dr. Stephen Lanier is in the process of obtaining this letter from the president and will be submitted in two to three weeks.

Also, please remove the authorization for 250 millicuries of sodium-22 in the form of unsealed byproduct material from our license. We currently do not have any researchers using it. Following this removal, a decommissioning funding plan is not required for WSU based on 10 CFR 30.35.
