Reference: Docket No. 70-143; SNM License 124

Subject: **Transmittal of NFS Emergency Plan, NFS-GH-903, Revision 22, dated June 2017**

Dear Sir:

Nuclear Fuel Services, Inc. (NFS) is hereby providing the NFS Emergency Plan, NFS-GH-903, Revision 22, dated June 2017. Revision 22 provides an update for the status of the BLEU Complex which has recently completed Phase I Decommissioning and is currently undergoing Phase II Demolition. Please note that this revision is focused on the BLEU Complex changes and not the annual review which will be conducted later this year.

Revision 22 has been reviewed and approved by the NFS Safety and Safeguards Review Council (SSRC). In accordance with 10 CFR Part 70, Section 70.32 (i), NFS has determined that the changes reflected in Revision 22 do not decrease the effectiveness of the Emergency Plan, and an amendment of SNM License 124 is not requested. Revision 22 replaces Revision 21, dated November 2016. It will become effective on June 30, 2017. Revision 21 should be destroyed or returned to NFS on or after that date.

Information contained in the enclosed Emergency Plan includes sensitive information and is marked "OFFICIAL USE ONLY" (OUO) in accordance with 5 U.S.C.552, and is not suitable for public release.
