PROPOSED AMENDMENTS TO
LICENSE RENEWAL RULE, 10CFR54
PLA-4235 FILES R41-2, P64-1**

Docket Nos. 50-387
and 50-388

Dear Sir:

Pennsylvania Power & Light Company supports the Nuclear Energy Institute's position and comments regarding the Proposed Amendments to the License Renewal Rule, 10CFR54.

We believe that the amended Rule, including the changes recommended by NEI, will safely, reliably and environmentally support the preservation of our nation's valuable nuclear power resources.

The amended Rule will improve the complementary relationship between the License Renewal Rule and the Maintenance Rule, while reducing the unnecessary duplication in the current License Renewal Rule. Accordingly, it will also reduce the uncertainty in the process, and provide a clearer basis for applicants to pursue license renewal.

We commend the Commission and the NRC Staff for the thorough technical evaluations and understanding which have been factored into these proposed improvements to the Rule.

Very truly yours,

R. G. Byram
