Docket No. 50-388
License No. NPF-22

Attached is Licensee Event Report 50-388/98-008-00. This event was determined to be reportable per 10CFR50.73(a)(2)(i)(B) in that Susquehanna SES Unit 2 was granted Enforcement Discretion to continue to operate in Condition 1 beyond the specified time limit of the appropriate Limiting Condition of Operation ACTION statement for an inoperable Main Steam Relief Valve (MSRV) acoustic monitor. Technical Specifications 3.3.7.5 and 3.4.2 require all MSRV acoustic monitors to be operable in Conditions 1 and 2. Enforcement Discretion was requested from the Nuclear Regulatory Commission and was granted, allowing continued operation until an outage of sufficient length to affect repair, not to exceed the Unit 2 9th Refuel Outage. Subsequently, Unit 2 was shut down to repair a leak in the Condensate System and the MSRV acoustic monitor was repaired.

G. J. Kuczynski
General Manager - Susquehanna SES
