

UNITED STATES  
NUCLEAR REGULATORY COMMISSION

REGION III  
2443 WARRENVILLE RD. SUITE 210  
LISLE, IL 60532-4352

JUN 08 2017

William J. West  
Radiation Safety Officer  
Testing Engineers & Consultants, Inc.  
1343 Rochester Road  
Troy, MI 48083

Dear Mr. West:

Enclosed is Amendment No. 21 renewing your NRC Material License No. 21-18668-01 in accordance with your request. Please note that we have changed the system used to prepare your license, which has resulted in several changes to your license. These changes include the removal of License Condition No. 18 as it appeared on Amendment No. 20, referring to transportation of materials in accordance with current NRC policy to include the reference to Title 10 of the Code of Federal Regulations, Part 71, "Packaging and Transportation of Radioactive Material," in the preamble, on page 1 of the license. In addition, Condition No. 13, Condition No. 16, Condition No. 20, and Condition No. 22.A and 22.B, as they appeared on Amendment No. 20, have been removed because these conditions are no longer applicable to your license. License Condition No. 19, as it appeared on License Amendment No. 20, has been amended in accordance with NRC policy. Finally, we have added NRC's Agencywide Documents Access and Management System (ADAMS) document accession numbers to the documents referenced in the amended licenses.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions. Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

The enclosed document contains sensitive security-related information.  
When separated from this cover letter this letter is uncontrolled.

W. J. West

-2-

NRC's Regulatory Issue Summary (RIS) 2005-31 provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through ADAMS, the NRC's electronic document system. Pursuant to NRC's RIS 2005-31 and in accordance with Title 10 of the Code of Federal Regulations 2.390, the enclosed license document is exempt from public disclosure because its disclosure to unauthorized individuals could present a security vulnerability. The RIS may be located on the NRC Web site at: <http://www.nrc.gov/reading-rm/doc-collections/gen-comm/reg-issues/2005/ri200531.pdf> and the link for frequently asked questions regarding protection of security related sensitive information may be located at: <http://www.nrc.gov/reading-rm/sensitive-info/faq.html>.

A copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

Jennifer L. Bishop
