SUBJECT: Supplement to License Amendment Request – Cyber Security Plan
Implementation Schedule, Proposed Change No. 314
Vermont Yankee Nuclear Power Station
Docket No. 50-271
License No. DPR-28

REFERENCE: 1. Letter, Entergy Nuclear Operations, Inc. to USNRC, *License
Amendment Request – Cyber Security Plan Implementation
Schedule Proposed Change No. 314*, BVY 17-007, dated
May 1, 2017 (ML17124A429)

Dear Sir or Madam:

By letter dated May 1, 2017 (Reference 1), Entergy Nuclear Operations, Inc. proposed an amendment to the Renewed Facility Operating License for Vermont Yankee Nuclear Power Station (VY). The proposed amendment would revise the VY Cyber Security Plan Milestone 8 implementation date.

This letter supplements the referenced amendment request by correcting the concluding statement in the response to the second question of the no significant hazards consideration determination as contained in Section 4.2, on page 9 of 11 to Attachment 1. The final sentence is revised to read:

Therefore the proposed change does not create the possibility of a new or different kind of accident from any accident previously evaluated.

VY affirms that the remainder of the no significant hazards consideration determination and the environmental considerations contained in Reference 1 are not affected by, and remain applicable to, this supplement.

This letter contains no new regulatory commitments. Should you have any questions concerning this letter, please contact Mr. Coley Chappell at (802) 451-3374.

SODIA
NRR

I declare under penalty of perjury that the foregoing is true and correct.
