

Dear Chairman Svinicki,

Thurs. June 8<sup>th</sup>, 2017 AD

Re: Nuclear Power

Congratulations to you for having been designated by President Trump to be the new Chairman of the Nuclear Regulatory Commission. I am sure you will do remarkably well.

I must confess to you that I am one of those men who would like to see a revival in the now stagnant nuclear power industry. I believe that nuclear power should be generating a great deal more of the U.S. energy supply than it is currently. I believe that nuclear power's much maligned reputation is undeserved. I believe that nuclear power is safe, clean, and cost effective.

Thus, it is my hope that you and the new U.S. Secretary of Energy, Mr. Rick Perry, will work constructively together to create a resurgence in the usage of nuclear power here in the United States. God bless the both of you in this effort.

Yours in Christ,

*- Jay T. Fisher*
