Category: This is a Category 1 meeting. The public is invited to observe this meeting and will have one or more opportunities to communicate with the NRC after the business portion of the meeting but before the meeting is adjourned.

Purpose: The purpose of this teleconference is to discuss DNC's planned license amendment request (LAR) submittal related to Millstone Power Station (Millstone), Unit No. 2, Technical Specification (TS) 3.8.1.1, "AC [Alternating Current] Sources - Operating." The proposed amendment would revise the TS to add required actions and allow up to 14 days (allowed outage time) in a configuration where a cross-tie switchyard breaker (13T-2) is closed, coincident with the Millstone, Unit No. 3, 'A' reserve station service transformer out of service. DNC will discuss the scope and proposed schedule associated with the Millstone, Unit No. 2, LAR submittal activities.
