INSPECTION SCHEDULE

Dear Mr. Murray:

The enclosed inspection schedule details the inspections to be performed by the U.S. Nuclear Regulatory Commission (NRC) for calendar year 2018. The inspection schedule is provided to minimize the resource impact on your staff and to allow for the resolution of any scheduling conflicts and personnel availability issues well in advance of inspector arrival onsite.

Please note that inspections related to safeguards, regional initiatives and other reactive inspections are not included in this schedule. Should circumstances arise requiring schedule revisions, you will be contacted to discuss the changes as early as possible. Please contact Tom Vukovinsky at (404) 997-4622 or Myla Ruffin at (404) 997-4456 with any questions or concerns you may have regarding this letter or the inspection schedule.

In accordance with Title 10 of the *Code of Federal Regulations* section 2.390 of the NRC's "Rules of Practice and Procedure," a copy of this letter and its enclosure will be made available electronically for public inspection in the NRC Public Document Room or and the NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,

/RA/
