Date: Wednesday, June 21, 2017 10:50:44 PM

Dear Nuclear Regulatory Commission,

I believe that any changes to the protective zones for the new SMR reactors at INEL is a terrible idea. This is a new technology and we all know that new technologies need a safety track record before they can be considered safer than other reactors. Please do not shrink the Emergency Planning Zones.

I believed previous claims of safety with other reactors. I live in Blaine County. Do not shrink the zones please.
