Commonwealth Edison Company
ATTN: Mr. Cordell Reed
Senior Vice President
Opus West III
1400 Opus Place
Downers Grove, IL 60515

Dear Mr. Reed:

This refers to the routine Fitness-for-Duty inspection conducted by Ms. G. M. Christoffer and Messrs. J. L. Belanger, J. R. Kniceley and T. J. Madeda of this office between June 11-13, 1991, of activities at your Corporate Office and at the Braidwood Nuclear Power Station, Units 1 and 2, authorized by NRC Operating Licenses No. NPF-72 and NPF-77; Dresden Nuclear Power Station, Units 2 and 3, authorized by NRC Operating Licenses No. NPR-19 and DPR-25; LaSalle Nuclear Power Station, Units 1 and 2, authorized by NRC Operating Licenses No. NPF-11 and NPF-18; and Zion Nuclear Power Station, Units 1 and 2, authorized by NRC Operating Licenses No. DPR-39 and DPR-48, and to the discussion of our inspection findings with Mr. G. Toleski and other members of your staff at the conclusion of the inspection.

The enclosed copy of our inspection report identifies areas examined during the inspection. Within these areas, the inspection consisted of a selective examination of procedures and representative records, observations, and interviews with personnel. This was an examination of the implementation of your fitness for duty program at four separate facilities. A single review of your Corporate level activities was done to eliminate unnecessary redundant reviews.

No violations of NRC requirements were identified during the course of this inspection.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC Public Document Room.

We will gladly discuss any questions you have concerning this inspection.

Sincerely,

L. Robert Greger, Chief
Reactor Programs Branch
