Re: **Materials License Amendment Application**
#50-21374-01

49-50 requests an amendment to our license, authorizing possession of a Troxler Laboratories Model 3241-C with the 100 mCi source. We suggest 8.C. read "not to exceed 110 millicuries per source" .

Current the license specifies Troxler Laboratories Model 3241-D with the 88 mCi total.

Thanks in advance for your assistance,
