LICENSEE: Commonwealth Edison Company (CECo)
FACILITIES: Byron, Braidwood, Dresden, Quad Cities, Zion, and LaSalle
SUBJECT: SUMMARY OF MEETING HELD WITH COMMONWEALTH EDISON TO DISCUSS
PROPOSED TOPICAL REPORT (QUALITY ASSURANCE PROGRAM) REVISION

On October 21, 1991, NRR staff met with representatives from CECo's Quality Assurance (QA) and Nuclear Licensing organizations to discuss the proposed topical report revision. The discussions included the licensee's approach, planned schedule and associated activities related to the formal submittal. The list of meeting attendees is provided as Enclosure 1.

The licensee presented an overview of their proposed revision to the QA program for information and informal discussion. A copy of the handout is provided as Enclosure 2. The presentation addressed specifics of CECo's QA program such as historical perspective, current status, anticipated actions, and rewrite process.

The licensee plans to make a formal presentation of their QA approach to Region III in December 1991. The licensee plans to formally submit the revised topical report in January 1992.

The staff discussed the specifics of some completed activities and CECo's organizational structure as it relates to QA program implementation. The staff also stated that Region III staff has program review responsibilities for topical report revision.
