

NOTICE OF VIOLATION

Commonwealth Edison Company
Dresden Power Station
Units 2 and 3

Docket Nos.: 50-237; 50-249
License Nos.: DPR-19; DPR-25

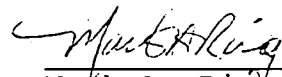

During an NRC inspection conducted December 2 through 6, 1991, a violation of NRC requirements was identified. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," 10 CFR Part 2, Appendix C (1991), the violation is listed below:

10 CFR 50, Appendix B, Criterion V, requires that activities affecting quality be accomplished in accordance with instructions that include appropriate quantitative or qualitative acceptance criteria for determining that important activities have been satisfactorily accomplished.

Contrary to the above, prior to December 6, 1991, the licensee's post modification test procedure for modification No. M-12-2-88-05 failed to include appropriate acceptance criteria required by procedure DAP 5-1, "Plant Design Change Program." This is a Severity Level IV violation (Supplement I).

Pursuant to the provisions of 10 CFR 2.201, Commonwealth Edison Company is hereby required to submit a written statement or explanation to the U. S. Regulatory Commission, ATTN: Document Control Desk, Washington, D.C. 20555, with a copy to the U. S. Nuclear Regulatory Commission, Region III, 799 Roosevelt Road, Glen Ellyn, Illinois, 60137, and a copy to the NRC Resident Inspector at the facility that is the subject of this Notice, within 30 days of the date of the letter transmitting this Notice of Violation (Notice). This reply should be clearly marked as a "Reply to a Notice of Violation" and should include for each violation: (1) the reason for the violation, or, if contested, the basis for disputing the violation, (2) the corrective steps that have been taken and the results achieved, (3) the corrective steps that will be taken to avoid further violations, and (4) the date when full compliance will be achieved. If an adequate reply is not received within the time specified in this Notice, an order may be issued to show cause why the license should not be modified, suspended, or revoked, or why such other action as may be proper should not be taken. Where good cause is shown, consideration will be given to extending the response time.

Dated at Glen Ellyn, Illinois
this 20th day of Dec., 1991

Mark A. Ring, Chief
Engineering Branch
