RE: NR-0269-S-103-S

Dear Tomas;

It has come to our attention that the Sealed Source and Device Registry, NR-0269-S-103-S, needs to be amended to include the Elekta Leksell Gamma Knife Icon under CONDITIONS OF NORMAL USE (page 3 of 8). The paragraph should read:

CONDITIONS OF NORMAL USE:

The Elekta Models 43047, 43685, and 1000029 are to be used in medical stereotactic radiosurgery devices. Examples of a stereotactic radiosurgery device into which these sources are loaded is the Elekta Leksell Gamma System Model 23004 Type B/B-2, Model 24001 Type C, the Elekta Leksell Gamma Knife Perfexion **and the Elekta Leksell Gamma Knife Icon.**

Should you have any questions or need additional information, please feel free to contact me at 770-670-2518 or via email at [debra.bensen@elekta.com](mailto:debra.bensen@elekta.com).

Sincerely,

A handwritten signature in blue ink that reads "Debra L. Bensen".
