Emergency Preparedness Requirements for Small Modular Reactors

Comment On: NRC-2015-0225-0002

Emergency Preparedness for Small Modular Reactors and Other New Technologies: Draft Regulatory Basis for Comment

Document: NRC-2015-0225-DRAFT-0023

Comment on FR Doc # 2017-07502

Submitter Information

Name: Dan Popovich

General Comment

I believe that this rule needs to be approved. I have worked in the Nuclear Industry for many years, and am deeply concerned about how the US seems to be falling behind a number of other countries in the implementation of Nuclear Technology. We need to maintain Nuclear Safety, but also need to take a realistic view of the value and safe operation of our Nuclear Power Plants.
