Subject: REQUEST: Information Category: Global Nuclear Fuels RAJ-II Letter Authorization

Good morning,

Please clarify if the email below and the letter attached to it are considered public or non-public. If the contents of the email below and/or its attachment are considered non-public, I need an affidavit per 10 CFR 2.390 to justify withholding this information from public disclosure in order to add this communication to the Model No. RAJ-II docket (71-9309).

Thanks,  
Norma Garcia Santos  
Project Manager  
Division of Spent Fuel Management  
Office of Nuclear Material Safety  
and Safeguards  
U.S. NRC

Phone No.: (301) 415-6999  
Email: Norma.Garcia-Santos@nrc.gov

Subject: [External\_Sender] Global Nuclear Fuels RAJ-II Letter Authorization

Dear Ms. Garcia-Santos,

I understand that Global Nuclear Fuels met with the NRC staff this week to discuss a letter authorization request for new fuel content for the Model No. RAJ-II package. Attached is a letter of support for GE's efforts. Accident Tolerant Fuels is an important program within DOE's Office of Nuclear Energy. GE is one of our fuel vendor partners that is developing promising new fuel concepts on an accelerated schedule to support Congressional direction we received soon after Fukushima.

Best regards,

William McCaughey  
Acting Director  
Office of Advanced Fuels Technologies  
Office of Nuclear Energy  
U.S. Department of Energy
