Lisle, IL 60532-4352

Regarding: Amendment of License Number 24-26673-03

Material's Licensing Branch,

As mentioned above this letter is regarding amending Horner & Shifrin, Inc.'s radioactive materials license number 24-26673-03. I need to request to amend Item 8A the, "Maximum amount the licensee may possess at any one time under this license" to 9 millicuries per source and 36 millicuries total of Cesium-137. I also need to request to amend Item 8B to 44 millicuries per source and 176 millicuries total of Americium-241. This is to allow our license to accommodate possessing up to four Troxler nuclear density gauges for the purpose of construction acceptance testing.

If you have any questions or need any additional information please contact me at (573) 718-4607.
Thank You.

Respectfully,

Ian K. Richardson
Materials Testing Manager / RSO
Horner & Shifrin, Inc.
