Subject: Request for Additional Information Regarding Braidwood and Byron Amendments to Remove Obsolete License and Technical Specification Items

Ryan,

In reviewing the Exelon Generation Company, LLC (Exelon's) submittal dated February 23, 2017 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML17055A631, related to the removal of obsolete license and technical specification items, for the Braidwood Station (Braidwood), Units 1 and 2, and Byron Station (Byron), Unit Nos. 1 and 2, the NRC staff has determined that the following information is needed in order to complete its review:

Item ID 14 in Table 2-1, renumbers CONDITIONS C and D to B and C respectively. The marked up Byron technical specification page 3.7.8 – 2 shows the renumbered CONDITIONS. The REQUIRED ACTIONS C.1, D.1, and D.2 are not renumbered in the markup, nor are they identified in Table 2-1 as being renumbered. The amended REQUIRED ACTION numbering therefore does not match with the CONDITIONS. Clarify whether or not the REQUIRED ACTIONS should be renumbered to be consistent with the renumbering of CONDITIONS C and D.

Joel S. Wiebe, Sr. Project Manager
