SUBJECT: Notice of Readiness of 95001 Supplemental Inspection
Grand Gulf Nuclear Station, Unit 1
Docket No. 50-416
License No. NPF-29

Dear Sir or Madam:

This letter serves as notification of Grand Gulf Nuclear Station's (GGNS) readiness for your office to perform a 95001 Supplemental Inspection. This would be an inspection of the white Performance Indicator in Unplanned Scrams per 7000 Critical Hours.

GGNS proposes the week of August 21, 2017, as a suitable time to accommodate the requirements of this inspection. In the event the NRC cannot support August 21, GGNS can accommodate the NRC during the week of August 28, 2017.

This letter contains no new commitments. Should you have any questions or require additional information, please contact James Nadeau at (601) 437-2103.

Sincerely,

A handwritten signature in black ink, appearing to read "E. Larson", written over a horizontal line.
