DEC 24 1992

Docket No. 50-237/92-35  
License No. DPR-19  
EA No. 92-253

Commonwealth Edison Company  
ATTN: Mr. L. O. DelGeorge  
Vice President, Nuclear  
Oversight and Regulatory  
Services  
Executive Towers West III  
1400 Opus Place Suite 300  
Downers Grove, IL 60515

Dear Mr. DelGeorge:

This refers to the inspection conducted by V. P. Loughheed of this office on October 19 through December 15, 1992. The inspection included a review of activities authorized for your Dresden Nuclear Station, Unit 2. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed report.

Areas examined during the inspection are identified in the report. This inspection specifically focused on the events surrounding your identification that Technical Specification Figure 3.6.1 was inaccurate. Within these areas, the inspection consisted of selective examination of representative records and interviews with personnel.

Based on the results of this inspection, one apparent violation was identified and is being considered for escalated enforcement action in accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions" (Enforcement Policy), 10 CFR Part 2, Appendix C. The apparent violation involves the inaccurate information submitted to the Nuclear Regulatory Commission in support of an amendment request for Figure 3.6.1 of the Unit 2 Technical Specifications. This inaccurate information led to the amendment being granted. Once you discovered the inaccurate information and informed the NRC of it, a new amendment request was submitted because the inaccurate information had a significant impact on the validity of the amendment.

Accordingly, no Notice of Violation is presently being issued for this inspection finding. Please be advised that the number and characterization of apparent violations described in the enclosed inspection report may change as a result of further NRC review. You will be advised by separate correspondence of the results of our deliberations on this matter. No response regarding the apparent violation is required at this time.

DEC 24 1992

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC Public Document Room.

We will gladly discuss any questions you have concerning this inspection.

Sincerely,

Original signed by E. G. Greenman

Edward G. Greenman, Director,  
Division of Reactor Projects
