GLEN ELLYN, ILLINOIS 60137

APR C 1993

Docket No. 50-237
Docket No. 50-249

Commonwealth Edison Company
ATTN: Mr. L. O. DelGeorge
Vice President
Nuclear Oversight and
Regulatory Services
Executive Towers West III
1400 Opus Place, Suite 300
Downers Grove, IL 60515

Dear Mr. DelGeorge:

This refers to the inspection conducted by Mr. J. H. Neisler of this office on March 31 and April 1, 1993. The inspection included a review of authorized activities for your Dresden Station, Units 2 and 3. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed report. The purpose of the inspection was to determine whether existing Dresden operating procedures were adequate to cope with a station blackout pending future installation of alternate AC power generators.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures, representative records, observation of activities and interviews with personnel.

No violations of NRC requirements were identified during the course of this inspection.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC Public Document Room.

We will gladly discuss any questions you have concerning this inspection.

Sincerely,

G. C. Wright, Chief
Engineering Branch
