Dr. Thomas E. Murley  
Nuclear Reactor Regulation  
U.S. Nuclear Regulatory Commission  
Washington D.C. 20555

Attention: Document Control Desk

Dear Dr. Murley:

Enclosed please find the report "Reactor Containment Building Integrated Leak Rate Test, Dresden Nuclear Power Station, Unit 2, May 12-14, 1993" and related appendices describing the Type A test. This test was performed during the thirteenth refueling outage for Unit 2. Dresden Nuclear Power Station Unit (Docket # 05000237, DPR-25) is located in Morris Illinois, and is owned by Commonwealth Edison whose address is: One First National Plaza, Box 767, Chicago, Illinois 60690.

This report is submitted to you in accordance with the requirements of 10CFR50, Appendix J, Section V.B.1. The information contained in Appendix A of this report is intended to comply with requirements of 10CFR50, Appendix J, Section V.B.3. According to 10CFR50, Appendix J, Section III.A.6, the test schedule for the next Type A test is to be reviewed and approved by the Commission. The next Type A test for Dresden Unit 2 is scheduled for the fourteenth refuel outage.

Sincerely,

*H.L. Massin*  
H.L. Massin  
Site Engineering and Construction Manager  
Dresden Nuclear Power Station
