Commonwealth Edison Company
ATTN: Mr. L. O. DelGeorge, Vice President
Nuclear Oversight and
Regulatory Services
Executive Towers West III
1400 Opus Place, Suite 300
Downers Grove, IL 60515

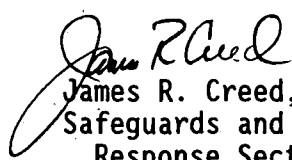

Dear Mr. DelGeorge:

SUBJECT: REVIEW OF REVISION 7B TO THE GENERATING STATIONS EMERGENCY PLAN

On August 24, 1993, Region III received Revision 7B to the Generating Stations Emergency Plan. We have reviewed Revision 7B and have determined that it is acceptable and that it does not degrade the effectiveness of your emergency planning.

Revision 7B indicated that the corporate emergency operations facility (CEOF), located in Downers Grove, Illinois, has replaced a facility in Chicago, Illinois as the location of the Zion Station's backup EOF. This relocation was approved by NRC in July 1993. Revision 7B provided updated information on the communications equipment in the CEOF. The revision also contained updated information on the senior managers responsible for maintaining your emergency preparedness program.

If you have any questions, please have your staff contact Mr. T. Ploski of my staff at (708) 790-5634.

James R. Creed, Chief
Safeguards and Incident
Response Section
