Office of Administration
Mail Stop OWFN-12-H08
US Nuclear Reg. Comm.
Washington DC

1. Very expensive & risky technology
2. No actual approval designs
3. More intensive water use than clean energy sources
4. Efficiency and most renewables are already cheaper.
5. "Obviously, it's not about science but the money"
6. Time it takes to certify SMRs will do little to help with global warming.
