Subject: acceptance of request for Amendment to Chapter 10 and replacement of Letter of Credit CAC L33444
Date: Thursday, June 29, 2017 2:01:00 PM

Hello Chris

This is to inform you that we have received letter number 17-035, dated June 8, 2018 which transmitted the request to amend Chapter 10 of the License Application of SNM-42 and replace the letter of credit with a surety bond.

The package was received satisfactorily and the original bank documents have been removed for storage in the safe in the Division of Decommissioning Uranium recovery and Waste Programs (DUWP). Copies of the bank documents are on file at the Document Control Desk.

The package has been profiled in ADAMS as publically available, *except for* the proposed text for Chapter 10, which is marked Official Use Only, and is non-public.

Cost Activity Control (CAC) number L33444 has been opened for this review. Please to refer to it in any correspondence associated with this action.

We understand that this request is to be expedited. We plan on completing the review by the end of August, 2017.

If you have any questions, just ask

Nick Baker
