Inservice Inspection (ISI) Plan  
NRC Docket Nos. 50-237 and 50-249

Reference: (a) P. Piet letter to T. Murley, dated August 13, 1993.

Dear Dr. Murley:

This purpose of this letter is to withdraw Relief Requests PR-01 (Rev. 1), PR-14 (Rev. 0), CR-06 (Rev. 1), CR-10 (Rev. 1) and CR-16 (Rev. 0) from consideration by the NRC Staff as part of Dresden Station's Third Ten-Year ISI Plan. These Relief Requests were last included in the Reference (a) submittal. Commonwealth Edison appreciates the NRC Staff's consideration of this matter.

In order to support the scheduling of the inservice inspection scope for the upcoming D3R13 refuel outage (currently scheduled to begin on March 12, 1994), Commonwealth Edison requests NRC Staff review and approval of all other remaining ISI Plan relief requests as soon as possible.

If there are any questions concerning this matter, please contact this office.

Respectfully,

Peter L. Piet
