Mr. Marty Bowling
Manager Nuclear Licensing and Programs
Virginia Electric and Power Company
5000 Dominion Boulevard
Glen Allen, Virginia 23060

Dear Mr. Bowling:

Thank you for agreeing to share Virginia Electric and Power Company's experiences and insights regarding the NRC's cost beneficial licensing action program during the public workshop to be held here on April 13. As you know, the workshop is being sponsored by the Office of Nuclear Reactor Regulation to provide a forum for the NRC and industry representatives to exchange views, and share information on both the NRC's Cost Beneficial Licensing Action (CBLA) and Technical Specification Improvement Programs (TSIP). The staff feels that both these programs provide a substantial reduction of unnecessary regulatory burden and can enhance safety by allowing staff and industry resources to be directed to programs and activities that have higher safety significance.

A workshop announcement and invitation with a preliminary program agenda, workshop information sheet, area map, Two White Flint North Auditorium location map, list of hotels, and workshop registration form is enclosed.

Your willingness to take time out of your busy schedule to attend the workshop and help inform others about cost beneficial licensing actions is very much appreciated. The NRC would like to encourage greater participation in these programs, and your comments will provide an important perspective for others attending the workshop.

If you have any questions or comments in advance of the workshop, please do not hesitate to contact Gene Imbro, Director, RRG/CBLA Programs at (301) 415-2969 or Elizabeth Doolittle of his staff at (301) 415-1247.

Again, thank you in advance for your participation.

Sincerely,
Original Signed By
