TPJ Ltr. #95-0083

U. S. Nuclear Regulatory Commission  
Attn: Document Control Desk  
Washington, D. C. 20555

Subject: Dresden Nuclear Power Station Units 2 and 3  
Third Ten-Year Interval Inservice Testing (IST) Plan  
NRC Docket Nos. 50-237 and 50-249

- References:
- (a) P. Piet letter to T. Murley, dated June 30, 1993, Transmittal of Revision 1 to the Dresden IST Plan.
  - (b) P. Piet letter to T. Murley, dated September 10, 1993, Transmittal of Revision 2 to the Dresden IST Plan.
  - (c) R. Barrett letter to T. Kovach, dated September 11, 1992, NRC staff Safety Evaluation of Revision 0 to the Dresden IST Plan.
  - (d) J. Dyer letter to T. Kovach, dated December 17, 1992, NRC staff Safety Evaluation of Revision 0 to the Dresden IST Plan.

In Reference (a), ComEd submitted Revision 1 to the subject Dresden IST Plan. ComEd submitted Revision 2 to the subject Dresden IST Plan in Reference (b). References (a) and (b) also provided supplementary information requested by the NRC staff within References (c) and (d).

The purpose of this letter is to notify the NRC staff of ComEd's intentions regarding Revision 1 and 2 to the Dresden Station IST Plan. Dresden Station has recently performed a self assessment of the IST Program. As a result of this assessment, Dresden has decided to update the IST Program by submitting revision 3 to the IST Plan. Revision 3 to the IST Plan includes updating the pump testing to meet the requirements of ASME/ANSI OM (Part 6) in its entirety and updating the Relief Requests contained in References (a) and (b) to the current IST Program and NUREG-1482, "Guidelines for Inservice Testing at Nuclear Power Plants".

It is Dresden Station's intention to supersede, in their entirety, the Reference (a) and (b) submittals regarding the Dresden IST Plan. Our current plans are to provide to the NRC staff, for review and approval, Revision 3 to the Dresden IST Plan, prior to August 31, 1995. In order to expedite Dresden's planning and implementation of Revision 3 of the IST Plan, ComEd requests NRC staff review and approval of Revision 3 of the IST Plan, in its entirety, within 90 days of receipt by the NRC staff. However, there may be individual items within Revision 3 of the IST Plan that may require earlier review. These issues will be identified at the time of our submittal.

If there are any questions concerning this letter please refer them to Peter Holland, Dresden Station Regulatory Assurance Supervisor, at (815) 942-2920, extension 2714.

Sincerely,

Thomas P. Joyce  
Site Vice President  
Dresden Station
