SUBJECT: INSERVICE TESTING PROGRAM REVIEW (TAC NOS. M91687 AND M91688)

Dear Mr. Farrar:

By letter dated July 14, 1995, Commonwealth Edison Company (ComEd) stated that submittals dated June 30, 1993, and September 10, 1993, concerning the Dresden Nuclear Power Station Inservice Testing (IST) plan and program, would be completely superseded in their entirety. ComEd stated that Revision 3 to the IST program would be updated and submitted to the Nuclear Regulatory Commission for review and approval prior to August 31, 1995. ComEd indicated that the IST plan would be updated using the guidelines of NUREG-1482, "Guidelines for Inservice Testing at Nuclear Power Plants."

The staff finds this action acceptable and will cease review of the above superseded documents. This completes the staff actions under TAC numbers M91687 and M91688.

Sincerely,

Original signed by:
