Subject: RAI for request to amend license

Discussion: I called and left a message for Mr. Hisel regarding their request to remove Steven Urganski from the license for Johnson Memorial – he is currently the only AU authorized on the license for 35.500 materials (Gd-153 for patient attenuation correction during S.P.E.C.T. imaging). We cannot remove him unless another AU can be added.

Action Required: Clarification from RSO regarding their request to remove S. Urbanski as an AU.
