Dear Mr. Perry:

During the week March 11, 1996, Mr. E. Plettner of this office administered initial license examinations to employees of your organization who operate and handle fuel at your Dresden Units 2 and 3 Nuclear Power Station. At the conclusion of the examinations preliminary findings were discussed with those members of your staff identified in the enclosed report.

Two non licensed candidates were given retakes exams. One for the written portion of the Reactor Operator (RO) examination and one for the written portion of the Senior Reactor Operator (SRO) examination. Both the RO and SRO candidates passed the written section of their examination. Both were issued their license.

No training weaknesses were noted in the individuals who passed the written exams.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosures will be placed in the NRC Public Document Room.

Should you have any questions concerning this examination, please contact us.

Sincerely,

/s/ T. M. Burdick
