Reference: (1) NRC letter, James L. Caldwell to H. W. Keiser dated
November 7, 1996

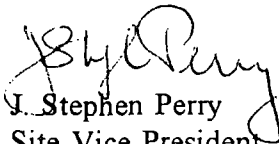

Dear Mr. Caldwell:

The above-referenced letter informed ComEd of concerns regarding Dresden Station that were received by the Nuclear Regulatory Commission (NRC), Region III.

A member of ComEd's management team, who is not part of the Dresden Station staff, conducted an evaluation of issues raised by these concerns. This evaluation has been completed and the results are available for NRC review at Dresden Station. This evaluation determined that the concerns could not be substantiated. We will ensure that the Dresden Station Senior Resident Inspector is briefed concerning this results.

If you have any questions concerning this issue please contact Mr. Frank Spangenberg, Dresden Station Regulatory Assurance Manager, at (815) 942-2920, ext. 3800.

Sincerely,

J. Stephen Perry
