

March 7, 1996

Mr. J. S. Perry
Vice President, BWR Operations
Dresden Station
Commonwealth Edison Company
6500 North Dresden Road
Morris, IL 60450

Dear Mr. Perry:

Thank you for your letter dated November 13, 1995, in response to our September 14, 1995, letter concerning activities associated with the Unit's 2 & 3 turbine work at the Dresden station.

In our letter, we requested that you review the work practices and instructions, work schedules, and foreign material exclusion (FME) procedures used during turbine repair activities at the Dresden station and submit the results of your investigation to the NRC.

Your response indicated that work practices and instructions were followed, that work schedules were followed and revised as needed, and that FME procedures were followed. Additionally, you identified some generic problems with the implementation of the FME program and outlined steps for long term corrective actions.

We found your investigation to be sufficient to support your conclusions and have no additional questions regarding this matter. We request that you retain the supporting documentation for your investigation for a minimum of one year from the date of this letter.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter will be placed in the NRC Public Document Room.

Your cooperation is appreciated.

Sincerely,

Original Signed by J. Caldwell for

William L. Axelson, Director
