Commonwealth Edison Company's (ComEd) Response to the U.S.
Nuclear Regulatory Commission (NRC) Request for Information
Pursuant to 10 CFR 50.54(f) Regarding Safety Performance at ComEd

Reference: J. J. O'Connor letter to U.S. Nuclear Regulatory Commission (NRC),
dated March 28, 1997.

The purpose of this letter is to correct a typographical error discovered in the Attachment to the referenced letter. On Page 60 in Section 5.6.4, regarding Material Condition, Design Basis Review and Ownership, the sentence: "200 Design/Licensing Basis Reviews were initiated in 1996 and are continuing in 1997." should be revised to, "Design/Licensing Basis Reviews were initiated in 1996 and are continuing in 1997." During the development of our response, ComEd was using footnotes to annotate statements of fact or commitments made within the letter. In a later draft of our response, footnote 200 was inadvertently changed to lower case when it should have been deleted in its entirety.

ComEd apologizes for any inconvenience this issue may have caused the NRC Staff. If there are any other questions, please contact this office.

Sincerely,

Irene M. Johnson
