JSPLTR #97-0148

U. S. Nuclear Regulatory Commission  
Document Control Desk  
Washington, D. C. 20555

Enclosed is Licensee Event Report 97-010, Docket 50-237, which is being submitted pursuant to 10 CFR 50.73(a)(2)(iv) which requires the reporting of any event that resulted in the manual or automatic actuation of the reactor protection system (RPS).

This correspondence contains the following commitments:

1. The Assistant Shift Operations Supervisor will counsel the involved individuals and perform the appropriate actions to correct the performance of the individuals in accordance with Station policy. (NTS 2371809701001)
2. The need and frequency for training on manual feedwater control and the expectations concerning contingency planning for evolutions which impact transient reactor water level control will be reviewed and the results will be presented to the Operations Curriculum Review Committee for resolution. (NTS 2371809701002)
3. The operations manager will review the HLA process to determine if revisions are needed to the criteria for the content of heighten level of awareness (HLA) briefs. (NTS 2371809701003)

If you have any questions, please contact Terry Riley, Dresden Regulatory Assurance Supervisor at (815) 942-2920 extension, 2714.

Sincerely,

A handwritten signature in black ink, appearing to read "Stephen Perry", is written over a circular stamp.

Stephen Perry
