Byron Station
Braidwood Station

SUBJECT: MEETING SUMMARY CONCERNING COMMONWEALTH EDISON COMPANY ENGINEERING IMPROVEMENT INITIATIVE

On March 5, 1998, Commonwealth Edison Company (ComEd) made a presentation to the NRR projects staff in PD III-2 regarding ComEd's planned engineering improvement program. A list of attendees is provided as Attachment 1.

The objective of the meeting was for ComEd to discuss an engineering improvement initiative which is common to all ComEd facilities and actions taken by ComEd regarding lessons learned from the Quad Cities Appendix R issues. A copy of the licensee's presentation is included as Attachment 2.

Major subjects discussed during the meeting included initiatives related to Design Basis Information, Configuration Documentation and their Licensing/Design Basis Change Process, including ComEd's 10 CFR 50.59 program.

ComEd also discussed Quad Cities Appendix R actions and lessons learned. A review at all ComEd facilities has been done to assure that procedures are consistent with the Safe Shutdown Analysis. Fire protection engineers from all of the ComEd facilities held a lessons learned meeting at Quad Cities to discuss the Quad Cities fire protection issues. There is also a fire protection process improvement program being developed. The Quality and Safety Assessment organization will have an oversight function to perform assessments/audits to verify lessons learned are being evaluated at the sites.
