RULES AND DIRECTIVES  
 1. DRAFT  
 1.440

## General Comment

Indian Point is a vital source of safe, reliable, clean energy to power the residential and industrial needs of New York state. Without the energy that Indian Point produces, New York will not only take an economic hit, but will also face rising carbon emission levels as less clean forms of energy are used in its place. Please keep Indian Point reactors in operation at least until a new generation of reactors can be built to replace the facility. Thank you.
