Storage of Fuel at Unit 2

Dear Mr. Price:

This is to notify you that NELIA has agreed to bind, effective September 19, 1969 an amendment of the current site description under NF-43 (Endorsement No. 54) to include the Unit 2 new fuel storage vault as well as the areaways and roadways between Unit 1 and Unit 2 new fuel storage vault used for the transportation of fuel licensed under SNM-1096.

Pending receipt of a revised plot of the site, we believe that the following language will be used in the amendatory endorsement:

"...the new fuel storage vault in the Unit 2 reactor building and the areaways or roadways between Dresden Station Unit 1 and the new fuel storage vault in the Unit 2 reactor building used for transportation of fuel licensed under SNM-1096."

This tracks the tentative language which your Mr. Saltzman indicated was being considered for use with the AEC's indemnity agreement.

Very truly yours,

Charles R. Bardes
